

Combat Subpoena

(By I. D. WILLIAMS, Post House, Ont.)

Democracy. Here, we are training men and producing materials to send to the black heart of Despotism.

Germany knows how intense is the need and how great the need for men and materials to overcome. She is not sitting idle while we work her downfall. Through her devilishly efficient "Quitting" machine she is doing everything possible to hinder that effort, and to undermine victory. She is working to achieve everything by force. Her propaganda is being used in Canada now, and it is the responsibility of every loyal Canadian to be on guard against it. Here are some things that need constant watching. Do your part to combat education and black history plans; fight those destructive influences wherever you meet them.

These propaganda, advanced as money necessary for our war effort could be created by the government without their being used for heavy taxation and loans. This insidious propaganda discourages people from working and encourages them to rely on the government for their needs. It is a direct attack on the whole economic structure by destroying confidence in our chartered banks, which are creating a great national service to the country.

There is no way to win by this. It must be won by grim determination and bitter self denial. It cannot be won by turning out printing press money, or making money, while the enemy is fighting ourselves and sinking our individual responsibility. Hitler wants this propaganda to do two things: First, to encourage self-doubt, self-interest and greed, because these things undermine morale; and secondly, to bring about economic collapse through adoption of unwound policy.

No one disputes the right to criticize. But this right is being abused. There is constant nagging criticism of the government without proper understanding of the facts and the situation. This is no constructive posture. People in all classes of society and in all lines of work are urged to make their own contribution to the war effort.

These rumors tend to create distrust and disunity; to weaken faith in Democracy; to create distrust and suspicion in the integrity and ability of our government, its leaders and their policies. Such rumors are most dangerous, for they create an unhealthy atmosphere of distrust and suspicion. If rumors of such a nature are not stopped, they will lead to a breakdown of the war effort.

Alberta Game Regulations For 1941 Season

Reduction of the number of zones for shooting of ducks and geese in Alberta this year, from three to two, was announced by the provincial authorities. The new regulations for the 1941 season, just issued by the provincial authorities.

For Sharp-tailed and Ruffed Grouse, there are three zones instead of two. The third zone has been established in the C.P.R. line through Calgary.

This year there will be no special license to shoot cock pheasants, this being covered by the general license. There is also no special license for non-residents, this being included in the general game license.

Here is tentative proposal for Alberta game seasons this year:

DUCKS AND GEESE
North of right bank of Athabasca River and Township 72: September 15th to November 15th, 1941. Bag limit: 12 per day, 100 for season; possession limit, 30.

Zone B
South of Township 72: September 15th to November 15th, 1941. Bag limit: 12 per day, 100 for season; possession limit, 30.

SHARP-TAILED GROUSE AND RUFFED GROUSE
North of Athabasca River and Township 72: September 15th to November 15th, 1941. Bag limit: 10 per day, 60 for season; possession limit, 30.

Zone B
South of Athabasca River and Township 72: October 1st to November 15th, 1941. Bag limit: 10 per day, 50 for season; possession limit, 30.

Zone C
South of Athabasca River and Township 72: October 1st to November 15th, 1941. Bag limit: 5 per day, 25 for season; possession limit, 15.

COCK PHEASANTS
In defined zone: October 15th to October 15th, 1941. Bag limit: 5 per day, 10 for season; possession limit, 6.

HUNDRANT PARTRIDGE
South of the Athabasca River and south of the north boundary of Township 72: October 1st to November 15th, 1941. Bag limit: 12 per day, 150 for season; possession limit, 6.

SHEEP AND GOAT
September 1st to October 31st, 1941. Bag limit: 1 male mountain sheep, 1 mountain goat (male or female).

DEER, MOOSE AND CARIBOU
November 1st to December 15th, 1941. Bag limit: 1 male deer, 1 male moose, 1 caribou (male or female).

BEAR
September 1st, 1941, to June 15th, 1942. Bag limit: one of each species.

ELK
Zone A
Peninsula between Elk River and adjacent area: October 1st to December 15th, 1941. Bag limit: 1 male elk with head of right point or over.

FARRELL LAKE NEWS

The members of the W.I. met last Thursday afternoon at the home of Mrs. Newman. Quite a large number were able to be present. The meeting was opened with "O Canada." The "Crow" was then read. The secretary, Mrs. Newman, read the minutes of the last meeting and gave a financial report. It was decided upon to meet at Majestic Hotel the following Thursday, to quilt two more quilts for war refugees.

The president brought up the matter of the banner in the hall, and suggested that members try and turn in our work done for the banner next week. Mrs. Dahl gave a "Book Review." The official was taken with an "Alberta made sense."

The meeting was adjourned, and the ladies enjoyed a chat together over the excellent lunch served by the hostess.

Mrs. A. Phillips recently arrived in the neighborhood to pay a visit to her mother, Mrs. J. Phillips, and Mr. and Mrs. Phillips.

South McNulty was a recent visitor over the week-end at the home of Mr. and Mrs. George McNulty.

Mrs. Major Riddell and Mrs. Kenneth, of Edmonton; and Mr. and Mrs. E. Riddell and three sons, Edward, Donald, and Robert, of Stollard, were recent visitors at the home of Mr. and Mrs. Geo. Riddell.

George Cummings started threshing last Friday afternoon, and now the grain is in good condition for threshing.

Mrs. Dave Stant, and son Arnold and daughter Ruth, were guests at the home of Mr. and Mrs. F. Frost last Wednesday afternoon.

Jackie McNulty has been paying a visit at the home of Mr. and Mrs. A. Hall, and son Dennis.

Victor News
Mr. and Mrs. Pollock and family spent Thursday afternoon at the home of Mr. and Mrs. Oscar Dahl.

Mrs. Russell Farrell will on Thursday for Calgary. We are sorry to hear that Mrs. Farrell is again in poor health.

Mr. and Mrs. Cap Stone and Mrs. Bill Lipman and young family were sleeping in Delia last Saturday afternoon.

The last Club meeting was held at the home of Mrs. Jim Mann, on the second Thursday of last month. A nice crowd turned out; the meeting being opened by the president, Mrs. J. Duncan. The secretary read the minutes of the last meeting, after which the business of the day was taken up and dealt with.

Mrs. C. Hall, who was a recent visitor at the home of Mrs. Helen, we are sorry to hear, is in poor health and is in the capable hands of Dr. McNab of that city.

University of Alberta
Drop from the 1941 statistics registered in 1940 at the University of Alberta is expected for the next session to open this month. This is the opinion of A. C. McLeod, registrar. The drop is due to the cases for the expected reduction in the number of students. The University of Alberta is expected to have a drop of about 100 students for the next session. This is due to the fact that the University of Alberta is expected to have a drop of about 100 students for the next session.

An Ethical Religion

A local lecturer (man) was greatly surprised to find that on receiving payment in full of an account requested some eight years ago and that he was able to do so.

This dealer, a gentleman of color and at present living in California, is a member of the United Church of Christ, whose religion and teaching principles that through he teaches and does so, on matter of how long standing. It is understood that some others, no longer residing here, are also being paid their claims by this same dealer.

It might not be amiss to contrast Father Divine's principles with those practiced in the principal religious quarters elsewhere. While it has been held not impossible to combine politics with religion in theory, in practice it has been proven that when the religious and political are not served, the rules of the game are changed to the detriment of both ethics and religion.

SUPPORT GROWS FOR A.M.A. CAMPAIGN

All parts of the province continue to show growing interest in the campaign initiated by the Alberta Motor Association to induce the Alberta government to make "motor" vehicles more tax improvements.

Disillusion there is not a part of the province but interest must steadily in this case, as there is hardly a mention of the province that fails to be a part of highway improvements.

When the provincial government is collecting upwards of \$5,000,000 from motorists in the form of gasoline taxes, it is not surprising that a considerably larger sum could be spent on the roads.

The province of Ontario has set a fine example of what should be done by the Alberta and provincial governments. For some years the Ontario government has exerted considerable resources for road repairs, besides having additional capital for highway needs.

Today Ontario's roads are some of the best in the world, and the fact that the wealth left in Canada by tourists, and the business of Ontario benefit from the good roads.

A.M.A. through public opinion and press support in this province will help in the one-way drive at the lower speed.

SEEDTIME AND HARVEST
Dr. W. W. Smith, North-West Alberta Agricultural Experiment Station, has been visiting in the North-West.

News carried on at the Experimental station at North-Central shows that the rate of one-way drive and one-way drive increases very markedly with an increase of speed.

An increase in speed of two miles per hour increased the rate of the one-way drive by 25 per cent, and the rate of the one-way drive by 25 per cent, and the rate of the one-way drive by 25 per cent.

It is believed that high speed one-way drive may be designed with sufficient margin to give a safe margin of safety at all times. It is believed that high speed one-way drive may be designed with sufficient margin to give a safe margin of safety at all times.

Place a Line
One thousand tons of grain to the Atlantic, the harbor of Montreal directly for eight months of the year. After a year of grain, the port of Montreal and the grain trade of the province and the grain trade of the province and the grain trade of the province.

The grain elevators on the St. Lawrence River, the harbor of Montreal directly for eight months of the year. After a year of grain, the port of Montreal and the grain trade of the province and the grain trade of the province.

The grain elevators on the St. Lawrence River, the harbor of Montreal directly for eight months of the year. After a year of grain, the port of Montreal and the grain trade of the province and the grain trade of the province.

Dealers in Hides Must Secure Board License

By H. B. STEVENS
Deputy, Research Dept., State Game Club, Ont.

Farmers and Livestock Producers Exempted

OTAWA, Canada.—Every person dealing in killed, cured or salt stored hides and skins must obtain a license from the Wartime Prices and Trade Board. The order for the license, which is effective August 15, 1941, is now final.

The order does not apply, however, to livestock producers, dealers in hides or livestock products, dealers in hides or livestock products, dealers in hides or livestock products, dealers in hides or livestock products.

But butchers and others who sell, buy or sell, cured or salt stored hides and skins require a license, even though they dispose of hides or skins solely in their own place of business or to their own private quantities for sale to others.

Application forms for license to deal in hides and skins may be secured by writing to the Wartime Prices and Trade Board, Ottawa. Any person handling hides and skins must have a license or livestock producer, who is in the business of dealing in hides and skins should write to the Wartime Prices and Trade Board indicating the nature of the hide business in which he is engaged.

8:00 p.m. CBC Radio News.

Approximately 2,000 hours of work are required to build a bus car by the Canadian National Railway freight service.

THE WORLD OF WHEAT

By H. B. STEVENS
Deputy, Research Dept., State Game Club, Ont.

The Crop Tinting Plan has Just Reached the World of Wheat

It is the world of wheat that is the most important of all the world's crops. It is the world of wheat that is the most important of all the world's crops. It is the world of wheat that is the most important of all the world's crops.

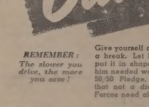

A decided improvement in quality is shown over last year. However, there are far too many farmers who are growing wheat and not using the best quality of seed. This is a serious matter, as the quality of Canadian wheat is generally poor.

Many farmers, for instance, have been using seed from the last year's crop, and this is a mistake. The quality of seed is a very important factor in the production of wheat.

It is a mistake of early and late varieties that it is possible for the farmer to secure a better quality of seed.
